

OUT-OF-OFFICE DISPENSING

Why Orthopedic, Dermatologist, Pain and Podiatry Physicians Choose Us

In-office physician dispensing has been around for decades. Both providers and patients benefit greatly from this service. Some physician dispensing companies though have changed how they charge for this service and it hurts the clinics.

Many companies are now taking 25% of the gross reimbursement or 50% of the NET profit. With us, you receive 95% of the NET profit.

As a member of our program, you will receive exclusive access to our formulary and prescription dispensing data.

Leverage our data to benefit your dispensary and take advantage of specific products performing well for your dispensing peers.

Drug Name: Norgesic

Average Reimbursement: \$1,678.00

Average Copay: Less than \$10 (Copay assistance available up to \$150)

Coverage Information: Widespread for Commercial and Federal

Average Price: \$1,125.00

Instead of paying 25% of the gross reimbursement **(\$419.50!!)**, choose BeneScripts and pay only 5% **(83.90!!)**.

ADDITIONAL BENEFITS OF THE PROGRAM INCLUDE:

- Highly compliant, copyrighted in the US Library of Congress
- Can start immediately
- Average 2x the revenue of in-office dispensing
- Dispense is performed at the pharmacy under pharmacist supervision
- No upfront cost
- No inventory stored on site
- No managing of inventory
- No staff required
- No dispensing software or software expenses
- No long or backed up checkout lines for patients
