

# THE SECRET OF THE HIDDEN HAMMOCK

A simple guide to how Tone4Life magnetic technology gives your core a superhero workout.

 **Tone4Life**

## A Strong Hammock.

Your pelvic floor is a hidden hammock of muscles that holds up your bladder. When it's tight and strong, everything stays safe and dry.

## A Sagging Hammock.

Life events, like childbirth or aging, can stretch the hammock out. When it's loose, sudden movements (like laughing or sneezing) squeeze the bladder, causing leaks.

# The Super-Chair in Action: How the Magic Happens
