

# Medicare Advantage Wound Care Recovery Program

Recover unpaid claims from prior years using advanced review technology

## Were your Medicare Advantage wound care claims denied or written off?

Many wound care physicians and mobile wound care clinics were **never paid** for medically necessary care provided to Medicare Advantage patients — even when documentation was appropriate.

We help providers **identify and recover unpaid Medicare Advantage wound care claims**, including claims going back up to 5 years.

## How the Program Works

- ✓ **Review of past Medicare Advantage** wound care claims
- ✓ **Advanced AI-assisted review** aligned with payer LCD requirements
- ✓ **Retroactive recovery** (up to 5 years back)
- ✓ **Ongoing guidance** to reduce future denials

You only pay a percentage after funds are recovered.
