SKU 01 / 12 · RECOVERY & WELLNESS

RECOVERY & WELLNESS

BPC-157

Support for the body's natural recovery pathways.*

WHAT IT IS

A 15-amino-acid peptide isolated from human gastric juice, BPC-157 (Body Protection Compound) is a stable, naturally-derived sequence supports the body's normal recovery processes across multiple tissue types.

STRIP DOSE

500 mcg

STRIPS / BOX

20 strips / 30-day supply

BEST FOR

- Everyday recovery support
- Active joints & connective tissue
- Gut comfort and digestive wellness
- Everyday recovery and tissue support

STACKS WELL WITH

GHK-Cu (post-procedure support) · Thymosin Alpha-1 (gut-immune support) · CJC-1295 (athletes 45+)

SKU 02 / 12 · STRENGTH & VITALITY

STRENGTH & VITALITY

CJC-1295

Supports the body's normal growth-hormone function.*

WHAT IT IS

A growth hormone releasing hormone (GHRH) analog that supports the body's own pulsatile GH production. CJC-1295 is widely used in longevity, performance, and body-composition goals — particularly for adults focused on age-related shifts in performance and body composition.

STRIP DOSE

150 mcg

STRIPS / BOX

20 strips / 30-day supply

BEST FOR

- Athletes and active adults 40+
- Adults focused on lean body composition
- Sleep quality, deep-sleep restoration
- Metabolic and body-composition goals

STACKS WELL WITH

BPC-157 (recovery + training) · GHK-Cu (lean body composition support) · PT-141+ (40+ hormone health)

SKU 03 / 12 · BEAUTY & SKIN

BEAUTY & SKIN

GHK-Cu

Supports the look of healthy skin and hair, from within.*

WHAT IT IS

A naturally occurring copper-peptide complex (glycyl-L-histidyl-L-lysine bound to copper) found in human plasma, saliva, and urine. GHK-Cu declines significantly with age and is one of the most extensively researched signaling peptides in dermatology and regenerative medicine.

STRIP DOSE

3 mg

STRIPS / BOX

20 strips / 30-day supply

BEST FOR

- Post-procedure support (microneedling, lasers, peels)
- Skin elasticity, fine lines, hair density
- Post-procedure skin support
- Skin firmness & elasticity

STACKS WELL WITH

BPC-157 (post-procedure recovery stack) · CJC-1295 (GLP-1 patients) · NAD+ (longevity-focused routines)

SKU 04 / 12 · INTIMACY & DESIRE

INTIMACY & DESIRE

PT-141+

Supports healthy desire and intimacy, for men and women.*

WHAT IT IS

PT-141+ combines bremelanotide (PT-141), a melanocortin receptor agonist that acts on the central nervous system to support intimacy and desire, with complementary actives for mood and bonding. Unlike vasodilator-based options, PT-141 works upstream — on desire and arousal — rather than on blood flow alone.

STRIP DOSE

Proprietary blend

STRIPS / BOX

10 strips per box

BEST FOR

- Midlife and post-midlife intimacy support
- Hormone-therapy patients seeking additional intimacy support
- Stress-related shifts in desire
- General arousal and bonding support

STACKS WELL WITH

CJC-1295 (the 40+ hormone-health stack — daily CJC + as-needed PT-141+)

SKU 05 / 12 · IMMUNE & DEFENSE

IMMUNE & DEFENSE

Thymosin α-1

Supports a healthy, balanced immune response.*

WHAT IT IS

A 28-amino-acid peptide originally isolated from the thymus gland, Thymosin Alpha-1 has been studied extensively as an immune-balancing peptide. It functions as an immune adaptogen — raising function in under-active immune systems and balancing it in over-reactive ones.

STRIP DOSE

500 mcg

STRIPS / BOX

20 strips / 30-day supply

BEST FOR

- Seasonal immune resilience
- Recovery and resilience after extended downtime
- Immune balance support (with clinical oversight)
- Older adults seeking immune resilience

STACKS WELL WITH

BPC-157 (immune resilience, gut-immune support) · GHK-Cu (post-downtime skin and hair support)

SKU 06 / 12 · ENERGY & LONGEVITY

ENERGY & LONGEVITY

NAD+

Supports the body's normal cellular energy processes.*

WHAT IT IS

Nicotinamide adenine dinucleotide is a coenzyme found in every cell of the body, central to the body's normal cellular energy processes. Levels decline measurably with age. Oral strip delivery provides a needle-free format that complements NAD-supportive routines.

STRIP DOSE

Proprietary

STRIPS / BOX

30 strips / 30-day supply

BEST FOR

- IV therapy lounges adding take-home maintenance
- Fatigue, brain fog, sluggish recovery
- Healthy-aging and longevity programs
- Post-IV maintenance between drip sessions

STACKS WELL WITH

GHK-Cu (longevity) · CJC-1295 (energy + body comp) · Glutathione (cellular protection)

SKU 07 / 12 · DETOX & ANTIOXIDANT

DETOX & ANTIOXIDANT

Glutathione

Supports the body's normal antioxidant defenses.*

WHAT IT IS

A tripeptide of glutamate, cysteine, and glycine, glutathione is the body's primary endogenous antioxidant. It supports the body's normal detoxification processes, supports the body's normal antioxidant defenses, and regenerates other antioxidants like vitamins C and E.

STRIP DOSE

Proprietary

STRIPS / BOX

30 strips / 30-day supply

BEST FOR

- Liver and detoxification support
- Skin brightening and pigmentation goals
- Athletic recovery and oxidative stress
- IV therapy patients seeking daily maintenance

STACKS WELL WITH

NAD+ (mitochondrial protection) · GHK-Cu (skin) · BPC-157 (liver protection)

SKU 08 / 12 · CELLULAR ENERGY

CELLULAR ENERGY

Boost (MOTS-c)

Support for cellular energy and how the body adapts to effort.*

WHAT IT IS

A mitochondrial-derived peptide of 16 amino acids that signals between the mitochondria and the cell. Formulated to support cellular energy production and the body's normal adaptation to training and everyday stress.*

STRIP DOSE

MOTS-c 1 mg

PACKAGING

20 strips / 30-day supply

PROTOCOL CYCLE

One strip daily · 5 days on, 2 days off

BEST FOR

- Active patients and athletes
- Everyday energy and output
- Training and stress adaptation
- Healthy aging at the cellular level

STACKS WELL WITH

NAD+ (cellular energy) · CJC-1295 (performance) · BPC-157 (recovery)

THE PLYA MED LINEUP

SKU 09 / 12 · METABOLIC HEALTH

METABOLIC HEALTH

Ultratrutide

Everyday metabolic balance in a once-daily strip.*

WHAT IT IS

A metabolic-signaling peptide in buccal strip format, formulated to support everyday metabolic balance and healthy appetite regulation as part of a diet and lifestyle program.* Intended for use under physician guidance.

STRIP DOSE

Ultratrutide 2 mg

PACKAGING

30 strips / 30-day supply

PROTOCOL CYCLE

One strip daily · use under physician guidance

BEST FOR

- Metabolic and weight-management programs
- Patients on a structured diet and lifestyle plan
- Appetite and energy balance
- Practices with GLP-1 cohorts

STACKS WELL WITH

MOTS-c (cellular energy) · NAD+ (daily support) · CJC-1295 (body composition)

SKU 10 / 12 · BEAUTY & RECOVERY

BEAUTY & RECOVERY

Klow

Four peptides for whole-system renewal.*

WHAT IT IS

A four-peptide blend — BPC-157, TB-500, GHK-Cu and KPV — in one daily strip. Formulated to support tissue recovery, skin and hair renewal, and an inflammatory response already within the normal range.*

STRIP DOSE

BPC-157 500 mcg · TB-500 300 mcg
· GHK-Cu 3 mg · KPV 500 mcg

PACKAGING

20 strips / 30-day supply

PROTOCOL CYCLE

One strip daily · 5 days on, 2 days off

BEST FOR

- Post-procedure recovery
- Skin, hair and healthy appearance
- Everyday renewal and repair
- Patients who want one strip instead of a stack

STACKS WELL WITH

Glutathione (antioxidant) · NAD+ (cellular energy) · Thymosin α-1 (immune)

THE PLYA MED LINEUP

SKU 11 / 12 · COGNITION & FOCUS

COGNITION & FOCUS

Neuro

Clear focus and a calm, steady state of mind.*

WHAT IT IS

Two heptapeptides developed from naturally occurring sequences — Semax for cognitive performance and Selank for calm without sedation — combined in a single daily strip.*

STRIP DOSE

Semax 500 mcg · Selank 500 mcg

PACKAGING

20 strips / 30-day supply

PROTOCOL CYCLE

One strip daily · 5 days on, 2 days off

BEST FOR

- Focus, attention and mental stamina
- A calmer response to everyday stress
- Executive and professional patients
- Study and high-demand periods

STACKS WELL WITH

NAD+ (daily energy) · MOTS-c (output) · Sleep (evening wind-down)

SKU 12 / 12 · SLEEP & RECOVERY

SLEEP & RECOVERY

Sleep

An easier wind-down and deeper, steadier rest.*

WHAT IT IS

DSIP (delta sleep-inducing peptide) with GABA and 5-HTP in one nightly strip, formulated to support relaxation and the body's natural rest sequence.* Patients taking medications that affect serotonin, such as SSRIs, should speak with their provider first.

STRIP DOSE

DSIP 200 mcg · GABA 20 mg · 5-HTP 10 mg

PACKAGING

30 strips / 30-day supply

PROTOCOL CYCLE

One strip at night, 30 minutes before bed

BEST FOR

- Sleep onset and nighttime wind-down
- Restorative, uninterrupted rest
- Shift work and travel recovery
- Patients on a recovery protocol

STACKS WELL WITH

Neuro (daytime focus) · BPC-157 (overnight recovery) · Klow (renewal)

THE PLYA MED LINEUP

START THE CONVERSATION

Add the right SKUs for your patient base.

Every practice has a patient profile. We'll help you pick the 3–5 starter SKUs that map to where your patients already spend, and grow the line from there.

FOR MED SPAS & AESTHETIC CLINICS

Start with Klow, GHK-Cu, and Glutathione. Layer in NAD+ for longevity-curious patients and BPC-157 for post-procedure recovery.

FOR HRT, TRT, AND LONGEVITY CLINICS

CJC-1295 and PT-141+ anchor the 40+ hormone-health stack. Add Thymosin Alpha-1 for senior patients, Ultratrutide for metabolic programs, and Sleep for patients on a rest protocol.

FOR IV THERAPY & RECOVERY LOUNGES

NAD+ and Glutathione give patients take-home maintenance between drip sessions. Boost and BPC-157 for athletic clientele, Thymosin Alpha-1 for immune-focused offerings.

FOR FUNCTIONAL & INTEGRATIVE MEDICINE

BPC-157 for gut support, Thymosin Alpha-1 for immune-driven cases. Neuro for cognitive support and Ultratrutide for metabolic programs.
